WILL COLLECT CLOTHING FOR EUROPEAN SUPPLIERS

The Red Cross is preparing to help meet the vital need for clothing of every kind to save the lives of thousands of men, women and children recently freed from the German yoke. These people are in northern France, Belgium, Italy, Rumania, Serbia, Greece, Montenegro, Albania, Czechoslovakia, Poland and Palestine.

A campaign for second hand clothing will be conducted during the week, March 24, to March 31. The time is ideal for the end of March is the time when the whole country is discarding its winter clothing. So it will be possible to collect vast quantities of clothing at a minimum of sacrifice.

The work here will be in charge of Mrs. Guy O. Babcock, and all clothing should be taken to the store building opposite the telephone exchange during that week.

If you have no need of sending, phone 47, the Red Cross office, leave your name and address, and the articles will be sent for you.

Grand Rapids Chapter, Red Cross.

Own a Home

We believe in the institution called marriage. We believe no man has reached the fullness of life until he has a household of his own. We believe man should take into himself the spirit of them.

Human tradition and human law require that, having done so, he shall furnish her with food and shelter. So far as shelter is concerned, to rent a room, or a few rooms, or a house somewhere, fulfills the letter of that tradition and law. We doubt very much that it fulfills the spirit of them.

We believe that a woman may very properly demand that the shelter that is furnished her by her husband shall be theirs in fact as well as in name. We believe that, if we were a woman, we would demand it.

We may be making trouble for some prospective bridegroom in this town, but nevertheless we suggest to the bride to be that his ability or desire to furnish her a home is a pretty good test of his character and affection.

Having begun to build or to buy, it means years, perhaps, of self-denial. It means going without this and means more than that. It means a lot of common sacrifice that will unite man and wife closer than could the enjoyment of any luxury.

So, we say to the woman, marry the man who is willing to give you a real home according to his means. And, we say to the man, marry a woman who demands it. It is that kind of a marriage that is likely to result happily.

Don't wait until you are dead to get a little plot of your own. Buy a lot and build a home.

NINE COUNTIES WILL ATTEND ROAD SCHOOL

Patrolmen, Foremen, County Highway Commissioners and County Committees of nine central Wisconsin counties are expected to gather in this city next Thursday and Friday to attend the Divisional Road School which will be held here then.

No less than one hundred and seventy-five representative highway men from Adams, Juneau, Green, Lake, Marathon, Marquette, Portage, Waushara, Waupaca and Wood counties are expected to be in Grand Rapids those days according to estimates made by P. F. Mengel and Co. Highway Comm. Louis Amundson, who have the matter in hand and are preparing the plans to make this a school which will be an actual benefit to every man in attendance.

The school will be conducted in this city under the auspices of State Commissioner J. P. Donaghy, who is state maintenance engineer. It is expected that one of the principal speakers of the gathering and will be assisted by Wm. Conway of Green Bay, division engineer of Division No. 2, W. C. Dutton of LaCrosse, division engineer of that district.

A program of singing, with "O' My Men," local division engineer. The chief topics which will be discussed will be the maintenance of roads, the building and maintenance of roads, the latter subject now becoming one of the most important when the state engineers have to face.

The object of holding this meeting is to get the highway men of this part of the state together and give them the benefits of what is being done in other parts of the state and the matters that have been discussed at the annual meeting of the engineers and County Highway Commissioners at Madison in the winter.

The location of this city along with the railroad facilities and extensive program that faces the highway men this year indicates a large attendance.

PATTERSON AND KAWALSKI SENTENCED BUT PAROLED

Mrs. Fred Kawalski and Halbert Patterson, who were taken into custody down at Waukesha where they were sent from this city, appeared before Justice Pomainville in Justice Court Friday morning and were bound over to circuit court. When bound over to circuit court Judge Park both pleaded guilty.

Mrs. Patterson was sentenced to two years at the state penitentiary at Waupun and Halbert Patterson three years at the same place. In view of the fact that both are married, Mrs. Kawalski being the mother of six children and Patterson having two, Judge Park gave them an opportunity to go back to their families and live on parole.

After leaving here the couple went to Fond du Lac where they stayed over night, later continuing their journey to Waukesha. Here they were registered under an assumed name and it is where the authorities caught them. When brought back to court Mrs. Kawalski in Milwaukee but when presented with the evidence that the local authorities had admitted his guilt.

Mr. Patterson took his wife back on a promise of good behavior and should either step from the straight and narrow in the future they will be sent down to the penitentiary without further trial.

NEW VICTORY STAMPS ARE MAKING APPEARANCE HERE

The first of the new limited issue of the Victory Stamps made their appearance in the mails of this city last Saturday when several of the postoffice employees notified letters bearing this latest stamp. There is the quietest of the short way of the stamp it is printed the long way and pictures the Goddess of Liberty holding the flags of the Allied nations.

Definite information regarding the decrease of the postal rates after July first have also been received and while July promises to be a good one for the post office, the two cent postal rates on first class letters and one cent on post cards will again be in effect. There has been considerable talk of the postal authorities to the first authentic word that has been received here.

The government is also planning on continuing the Thrift Campaign to make the saving habits taught during war times lasting virtues. The war stamps and Thrift Savings Stamps will be continued to be sold along with this the government will conduct a movement to promote wise spending, avoid waste and encourage safe investments.

DIED IN WASHINGTON

Andrew Zurhuf of Nekosco received word on Sunday of the death of his father, Francis Zurhuf, who died that morning at Tacoma, Washington. The elder Mr. Zurhuf was at one time a resident of this section, a resident of the state of Washington and the remains were brought here for burial.

March 20 April 3
Notice for Administration and Notice to Creditors

State of Wisconsin, County Court, in and for the County of Grand Rapids, In Re Estate of Anton Huber, deceased.

Notice is hereby given, that at the term of said court to be held on the 3rd Tuesday (being the 15th day) of April A. D. 1919, at the court house in the city of Grand Rapids, county of Wood and state of Wisconsin, there will be heard and considered the application of an administrator for the estate of Anton Huber, late of the county of Hansen, in said county, deceased.

Notice is hereby further given, that the term of said court to be held at said court house on the 1st Tuesday, (being the 2nd day) of September, A. D. 1919, there will be heard and considered, all claims against said Anton Huber, deceased.

And Notice is hereby further given that all such claims for examination and allowance must be presented to said court at the court house, in the city of Grand Rapids, in said county and state, on or before the 2nd day of September, A. D. 1919, or be barred.

Dated March 18th, 1919.
By the court,
J. J. Jeffrey, W. J. Conway, County Judge.

THIEVES GET SMALL HAUL FROM WEST SIDE STORES

Thieves, who forced their entrance into three west side places of business last Friday night, escaped with a loot amounting to about fifteen dollars. The men robbed the Nick Tomsyck saloon, the Jack and Salsky store and the Frank Swartz saloon, all of the robberies being committed at about four o'clock in the morning.

A Tomsyck saloon a crowd was used in forcing the door, the lock being broken. Here the men found a small sum of cash in the register. The fact that the thieves took neither cigars nor liquor was usually being the motive of robbery.

Persons sleeping above the Tomsyck saloon state that the thieves came down there about four o'clock, but thinking that Mr. Tomsyck had started his work a little earlier that morning because of some other things he had planned to do that day, they entered a small sum of money at the Jack and Tomsyck store, using the cash bar to effect their entrance.

At the Swartz saloon, the thieves entered through a small window in the rear. When the total was figured up it was found they had taken about \$15.

Which no longer a resident of the city, the local committee has before the Legislative at Madison. The bill, he explained, would increase the tuition of non-resident pupils from the present rate of \$1.50 per week to \$1.50, as submitted by that body, but went on further to say that other schools have advocated that this tuition would be done dependent to some extent on the action of the assembly down at Madison.

The bill will affect chiefly the people from the other communities here who attend the local high school and according to Mr. Ragan the farmers that have been approached on the subject of the present rate, he explained, does not cover the cost of educating a child and the result is that a working man in town who owns a child of not more than \$1,000 or \$1,500 and pays taxes on it is helping pay for the education of a rural student whose parents probably own property valued at from \$10,000 to \$25,000.

Mr. Ragan said that through the energetic efforts of Senator Witter and Theo. W. Brazau of this city the bill had been passed by the assembly and that now the assembly will act on it still to be seen.

Prof. Doudna said that there were 102 non-resident pupils attending the local high school and that they were paying \$36 a year for their education. The cost, as has been figured out, amounts to about \$70 apiece. He explained that the legislature pass the bill with the tuition at \$2 it would mean would save \$36.00 each year in taxes for the support of the schools. The professor spoke of showing the cost of operating the schools in this city and stated that the percentage of cost paid by the low and the operating expenses for the building was unusually high.

He told of the present system in the Lincoln building, condemning it and stated that the better system was that of an expenditure of from \$6,000 to \$8,000 for a new heating system the city could save \$2,000 a year, meaning that the new system would pay for itself within four years. The present cost of the Lincoln building, \$4,000 a year, would be paid by the city and the system of operating the building was unusually high.

He told of the present system in the Lincoln building, condemning it and stated that the better system was that of an expenditure of from \$6,000 to \$8,000 for a new heating system the city could save \$2,000 a year, meaning that the new system would pay for itself within four years. The present cost of the Lincoln building, \$4,000 a year, would be paid by the city and the system of operating the building was unusually high.

The present cost of the Lincoln building, \$4,000 a year, would be paid by the city and the system of operating the building was unusually high.

SCHOOL BOARD HAS ONE NEW MEMBER

I. E. Wilcox, who will fill the Seventh Ward chair on the school board formerly occupied by C. A. Hatch, was the only new member elected to the Board at the Annual meeting held at the Lincoln school Monday evening. Little opposition to any candidate was shown in any of the wards, the people of the city evidently being well satisfied with the work of the old Board, candidate after candidate getting the unanimous vote of the entire assembly.

A representative of the women was a representative of the men partially filled the large assembly room at the Lincoln school on this occasion and while the women would have been considerably larger crowd the meeting was a fair sized one as far as school meetings have gone. Earle M. Pease acted as chairman with Prof. Doudna as secretary.

The commissioners who were elected are as follows:
First Ward—W. H. Reeves.
Second Ward—W. F. Kellogg.
Third Ward—W. F. Kellogg.
Fourth Ward—Guy O. Babcock.
Fifth Ward—E. A. King.
Sixth Ward—Frank Lutz.
Seventh Ward—J. W. Wroth.
Eighth Ward—Long term, J. B. Nash.

Short Term—Hugh Bollen.
The fact that a Commissioner C. A. Hatch no longer a resident of the Seventh Ward eliminated any contest in that ward. Mr. Wilcox having received the only nomination made for Commissioner here and a unanimous vote. A few other candidates were mentioned in other wards, some receiving a second nomination while others were not mentioned.

Reporting on the work of the Legislative committee of the School Board, J. R. Ragan, of the Lincoln school, the local committee has before the Legislative at Madison. The bill, he explained, would increase the tuition of non-resident pupils from the present rate of \$1.50 per week to \$1.50, as submitted by that body, but went on further to say that other schools have advocated that this tuition would be done dependent to some extent on the action of the assembly down at Madison.

The bill will affect chiefly the people from the other communities here who attend the local high school and according to Mr. Ragan the farmers that have been approached on the subject of the present rate, he explained, does not cover the cost of educating a child and the result is that a working man in town who owns a child of not more than \$1,000 or \$1,500 and pays taxes on it is helping pay for the education of a rural student whose parents probably own property valued at from \$10,000 to \$25,000.

NOTED SPEAKER TELLS OF LEAGUE OF NATIONS

S. Duncan Clark, sustaining president of the League of Nations and explaining how urgent the need of such an organization is, held the keenest attention of every member of the Sunday Evening Club Sunday night. Mr. Clark, who is an editorial writer for the Chicago Evening Post, and one of the best speakers in the country, told the members of the club that the capacity of the large auditorium at the Congregational church at this meeting, it being necessary to take advantage of the Sunday school room which can be opened into the auditorium to take care of those in attendance.

Stating that the League of Nations was the demand of the foreign countries, the demand of the soldiers and the most talked of problem discussed for the period following the winning of the war abroad, Mr. Clark explained that the League of Nations was necessary to keep the foreign countries who had participated in the war together on a basis of this sort. As he termed the League of Nations a "club" and in doing this would also keep the sanity of this country. The dangers of the results of the period of chaos which has been in evidence since the signing of the

ROAD PROBLEM UP TO LEGISLATURE

Must Find \$5,000,000 to Get
Federal Aid.

MAY RAISE AUTOMOBILE TAX

Suggested That State Withhold One-
Quarter of License Fees Now Be-
ing Turned Over to the
Counties.

Madison. One of the highly im-
portant problems looming up before
the present legislature is the financing
of Wisconsin's future road program.
This grows out of the fact that under
the new federal road act, passed
toward the close of the session of the
present congress, the federal aid to the
states, which under the original bill is
\$75,000,000, was increased in the sum
of \$200,000,000. Under the \$75,000,000
bill Wisconsin's allotment was ap-
proximately \$2,000,000. Under the
new bill her allotment is increased to
\$2,000,000 in the next two years.

The question is, how is Wisconsin
to meet this \$2,000,000, as the federal
aid act requires that the state shall
appropriate an amount equal to that
appropriated by the government.

Two years ago, when it was neces-
sary to meet the terms of the federal
aid act, which allocated the sum of \$2-
000,000 to Wisconsin, the state au-
thorities, in order to get the federal
aid, changed it so that instead
of receiving three-quarters of the li-
cense fees paid in by each county, the
counties would receive but one-quarter.
The three-quarters of the state trunk
fund was diverted to the state trunk
fund, which was increased to \$10,
and in this way the state's share was
met. It was met by taking the moneys
from the counties, which meant that
the counties had to levy a tax for road
maintenance, which heretofore was
taken care of by utilizing the three-
quarters of the automobile license
funds they received.

Suggestions that the state meet the
new \$2,000,000 allotment by what some
of the county board members call
again "passing the buck" are meeting
with much opposition. One suggestion
is that the state withhold the one-
quarter of the motor license fees now being
returned to the counties, which will
amount to about \$300,000 in this fiscal
year, and another is that the state
write out the personal property tax on
motor vehicles, which now goes into
the treasuries of the local unit, and
increase the license fee to \$15 or \$20,
to go into the state trunk fund.
The taking away of several hun-
dred thousand dollars from the local
treasuries, either of these suggestions
involves the levying of additional local
road taxes.

At a recent meeting of the chairmen
of the county boards of Wisconsin,
held at Milwaukee, there was unani-
mous opposition to what they called
"any further passing of the buck."
These present called attention to the
fact that the road tax was not de-
creased whatsoever, but that it was
simply uncollected by the counties, in-
stead of the state taking care of its
share. The meeting passed strong
resolutions and ordered a copy sent
to each member of the legislature. The
closing paragraph is as follows:

"Resolved, that the chairmen of the
county boards of Wisconsin, in con-
vention assembled, protest against any
further legislation which would in-
crease the burden of the state trunk
fund, or by diverting the
funds now allotted to the counties, and
place ourselves on record as in favor
of meeting all state highway appor-
tations by levying a direct state tax."

"The legislators are hearing from
members of county boards every day
regarding this resolution."
At the meeting at Milwaukee at-
tention was called to the fact that the
state, under the state trunk highway
act, was paying the cost of the burden
of the state trunk fund, but that the
state was not making up of money
taken from the counties, and under the
state act the state was paying less
than 20 per cent of the cost of build-
ing the roads, whereas the theory was
that the state, counties and towns
should each pay one-third.

"That the farmer was ahead of the
scientist in the discovery that bur-
berry was a dangerous shrub in the
spreading of rust which destroyed the
farmer's wheat crop, was the state
ment made by Prof. A. J. Johnson of
the agricultural department of the
university, speaking before the agri-
cultural committee."

"The scientist was somewhat suspi-
cious of the conclusion of the farmer,"
Professor Johnson said, "but the
farmer, who saw the burberry bush
in close conjunction with the rust-struck
wheat, insisted, and eventually the
scientist verified the fact and caught
up with the farmer."

Inter-State Basketball Tournament.
An interstate high school basketball
tournament, at which the high school
championship of the central states will
be decided, is to be held at the Uni-
versity of Wisconsin on March 21 and
22. The University of Wisconsin will
send invitations to the winners of the
state tournaments through the agri-
cultural associations. High school cham-
pions of Minnesota, Michigan, Illinois, Iowa,
Indiana and Wisconsin will be invited
to play there. The plan has already
received the sanction of the Wiscon-
sin Inter-Scholastic Athletic association.

Urged to Keep Up Insurance.

Discharged soldiers and sailors are
advised to keep up their government
insurance policies by Commissioner of
Insurance M. J. Cleary in a letter to
Senator Mulberger on the subject. "In
my opinion it would be unwise for the
boys to drop this insurance when dis-
charged," wrote Commissioner Cleary.

Five Weeks Ahead of Schedule.

The joint committee on finance is
far ahead of its schedule in the con-
sideration of financial bills. The sub-
mission to the legislature by the board
of public affairs of a financial budget
has facilitated the work of the com-
mittee and Chairman A. E. Wilkinson de-
clares that the committee is now five
weeks ahead of the schedule of the
committee two years ago. He believes
that all financial bills will be reported
to the house by April 1. The com-
mittee is being complimented by the
members of the assembly.

Appropriations Cannot Be Made.

Several proposed appropriations, in
bills up for hearings before assembly
and senate finance committees, are
unconstitutional, according to an op-
inion rendered by Attorney General J.
J. Kane to E. L. Kieffer, secretary
of the state board of public affairs.

The list of invalid appropriations
includes that to the family of Bill
Purdy, the attorney general ruling
that appropriations can be voted by
the legislature only for purposes of
common interest as taxpayers can be
required only to pay taxes in private
and therefore illegal, it is held.

The proposed increases in salaries
for M. E. Timmenfeld, superintendent
of public property, and for George W.
Weigle, deputy and food commissioner,
are invalid because such increases can
not be granted during term of office.
Thus it implies increase can be grant-
ed to take effect should Mr. Weigle be
reappointed, or for his successor.

Another important appropriation bill
which would be illegal, according to
the attorney general, is that of Sen-
ator Buck, appropriating \$34,500 for
such increased salaries for teachers as
may be authorized by normal school
regents. These teachers already are
under contract, entered into for the
school year, and the constitution does
not permit increases for services after
services shall have been rendered or
contract entered into, it is held.

Proposed increases for court re-
porters are upheld, as they are
pointed under a special section of the
appending judges or successors
may receive them at pleasure.

The Perry bill for increases for leg-
islative employees is upheld, as they
are not classified as officers, but in-
creases must affect service rendered
after act goes into effect.

Bill Would Bar Aliens.

Assemblyman Delaney introduced
two resolutions to congress, one ask-
ing for the deportation of interned
enemy aliens and the other asking for
the prohibition of immigration for such
persons. The resolutions are at
present under consideration of the
committee on immigration. The resolu-
tion asking for the deportation of in-
terned enemy aliens, which we are at
present considering, is a resolution of
the committee on immigration, which
has been passed by the assembly.

The resolutions asking for the de-
portation of interned enemy aliens, which
has been passed by the assembly, is a
resolution of the committee on immigra-
tion, which has been passed by the assembly.

Calles Trading Stamp Paralel.

"The trading stamp is a commercial
paralel," declared Attorney F. L. Gil-
bert, Madison, who with Mr. Slater
represented the Wisconsin Retailers'
association before the assembly com-
mittee on currency. The association
opposes the bill which would permit
trading stamp companies to issue stamps
and certificates redeemable in cash for
merchandise.

Attorney Gilbert declared that the
passage of the Nolan bill would open
the door to many inferior trading
stamp companies, which would in-
crease the burden of the state trunk
fund by their methods of
operation in securing their business.

Leads in Red Cross Nursing Survey.

Wisconsin's record for the Red
Cross nursing survey, recently con-
ducted through questionnaires, leads
the five states forming the Red Cross
central division, with headquarters in
Chicago, Ill. Its present record is 67
per cent of questionnaires returned.
The record, so far, shows 478 gradu-
ated nurses, 370 pupil nurses, 46
graduate nurses, 22 trained attend-
ants, 87 practical nurses, 78 registered
nurses and 413 graduates of Red
Cross classes.

Bill to Pay Soldiers for Time.

Senator A. J. Pullen, Fond du Lac,
first member of the 1917 legislature to
enter the military service, having en-
listed as surgeon, is determined that
the state shall use all its power for the
returning soldiers. He has a new bill
for the payment by the state of \$10
to each honorably discharged fight-
ing man for every month he was in
service. The bill provides that the
state may borrow the money, not to
exceed \$20,000,000 through 4 1/2 per
cent bonds.

May Settle Indian Land Problem.

The legislature is going to take up
the question of reimbursing Indians
of Wisconsin for the use of the "school
lands" and "swamp lands" and the
timber which was cut from those lands
on reservations.

Prospects for Big Homecoming.

Gov. B. L. Philipp is tackling the
soldiers and sailors' reunion and home-
coming in Milwaukee next fall after
the fashion of an expert showman.
It's a big job, with many complicated
details to be worked out, but the gov-
ernor considers it a profitable and in-
teresting task. He has already taken
up the matter with the legislature, and
the legislature has given it the support
of the legislature with whom I have
discussed the reunion and homecoming
are very enthusiastic in their support
of it," said the governor.

Bar Quiz on Objectors.

By a vote of 44 to 20 the assembly
tabled a bill appropriating \$20,000 for
the purpose of holding a bar quiz on
the subject of the alleged inhuman treatment
of conscientious objectors in the various
prison camps.

School Farm Is Advocated.

The committee on education sent to re-
vision a bill appropriating \$20,000 for
the purpose of holding a bar quiz on
the subject of the alleged inhuman treatment
of conscientious objectors in the various
prison camps.

WASHINGTON'S WISH TO BE FULFILLED

GREAT MEMORIAL BUILDING IN
THE CAPITAL CITY WILL HELP
TO DIFFUSE KNOWLEDGE.

CONGRESS GIVES THE LAND

Association Headed by Mrs. Henry F.
Dimock Is Raising the Money—
Beautiful Structure Will House Con-
ventions and National Societies.

By EDWARD B. CLARK.

Washington.—A George Washington
memorial building is to be erected in
the capital city of the United States.
It has been long in the making. In a
larger sense the building will be devoted
to educational purposes, the end to be
reached not by the direct teaching of
things that the schools teach specifical-
ly, but by the diffusion of general
knowledge of all things worthy.

In his farewell address George
Washington said: "Knowledge is in
every country the surest basis of pub-
lic happiness." He also expressed
the wish that his country would pro-
mote "institutions for the general
diffusion of knowledge." For years
almost out of mind there have been
attempts, some of which died a bor-
ning, to carry out what may be called
the educational wishes of the Father
of his Country. Comparatively re-
cently a proper project has been for-
mulated and it is to be carried
through to the end.

Womankind, as it is called, in these
days will have the main hand and
heart in the patriotic plan.

Some time ago congress agreed to
give the land upon which the George
Washington Memorial building should
be erected. The land given is a part
of the Mall which lies southward of
Pennsylvania avenue between
thoroughfare and the river. Before
many years have passed it is probable
that all buildings, not given over to
government uses, which are located
between the great avenue and the
river will be removed and then the
country will have a great open space
occupied by nothing but the trees and
flowers, and the lawns which belong
together with beautiful structures
devoted to governmental or
municipal use.

Mrs. Dimock's Successful Efforts.

Mrs. Henry F. Dimock, of 1301 Six-
teenth street, Washington, is the
president of the George Washington
Memorial association. Mrs. Dimock is
the sister of William C. Whittier, who was
Grover Cleveland's secretary of the
navy and who frequently is called the
father of the modern navy. For it was
under his direction that the first mod-
ern warships were built and put into
service.

Through the efforts of Mrs. Dimock
\$550,000 have been raised already for
the memorial building purposes. More
money is to be raised, for the build-
ing will cost a large sum and the ex-
penditures necessary to make it meet
in beauty and utility the demands of
its purposes will be great.
The site of Washington never has
had a worthy hall in which the vari-
ous conventions which are held in the
capital might meet. It is the inten-
tion to open the memorial building for
the use of conventions which, whether
they are for business or for scholastic
purposes, are in the highest sense edu-
cational. Thus it is intended to
open the views of George Washington
concerning the necessity of promoting
"institutions for the general diffusion
of knowledge."

Features of the Building.

The plans for the great structure
have been approved by the fine arts
commission and by congress. The
main feature of the building is the
large auditorium which will hold a
large number of people. The floor area
of the auditorium will be 38,500 square
feet with a gallery of 10,000 square
feet and a stage of 3,000 square feet.
The hall will seat nearly 8,000 people.
It will be used for all national and in-
ternational conventions and all other
great public welfare functions.

Grouped about the auditorium will
be six or seven convention halls hold-
ing from 600 to 2,500 people, and each
hall will have two committee or re-
ception rooms connected with it. There
will be a great banquet hall, large and
small reception rooms, and in addi-
tion there will be permanent quarters
for national associations and societies.
Societies of the proper kind may se-
cure halls in permanency by the pay-
ment of \$25,000 toward the building
fund.

Gas in Warfare.

The future historian may write
April 22, 1915, in letters of red.
If the maker of coming encyclope-
dias is given to setting forth events in
combinations because of their common
interest, Congress and Ypres will appear
in close conjunction.

At Crecy, on August 28, 1346, gun-
powder first was used in battle; while
on April 22, 1915, gas first appeared as
a poisonously offensive weapon of war-
fare.

Gunpowder has come to stay. The
hopes of thousands may be to the con-
trary, but the dominating opinion in
military circles is that gas also has
come to stay.

The Human Equation Enters into the

The Apocrypha.
Would Elevate Business.
The barbers of Osaka, Japan, who
number 4,500, have approached local
authorities with a proposal to estab-
lish a training school for the knights
of the razor. It has been complained
that "many barbers in Osaka have
not that elementary knowledge of
surgery absolutely necessary for their
vocation," and the better qualified wish
to compel all intending to enter this
profession to pass final examinations
at the special school.

Sound-Proof Council Room.
The apartment at 10 Downing street,
where the meetings of the British cab-
inet are held, is a solid and plainly
furnished room, with a large and 20
feet wide, fitted with double doors,
through which no sound can reach the
keenest listening ears.

Not What He Meant.
"The paths up this mountain are
too steep for even an ass to climb,"
therefore I am not going to the top,"
said a man, who was asked to lead a
party of hikers up the mountain, which
aroused untimely mirth.

matter of the use of gas in battle. A
score of years ago, when commissioners
of supposedly humanely inclined na-
tions met at The Hague, which for
some reason or other it was thought
would be the permanent seat of hu-
manitarianism, altruism and of peace
among the peoples of the earth.

The use of gas in war was discussed
in that Hague meeting. Great Britain,
France, Germany and some other na-
tions agreed not to use it in the pos-
sible wars of the future. France and
Great Britain abided by their pledged
faith until Germany broke its word
with the same lack of conscience and
compunction that it tore up the scrap
of paper which was supposed to safe-
guard Belgium from invasion and ex-
ploitation.

Must Be Prepared to Be Safe.
To get down to the nub of things,
military men here seemingly believe
that no nation can afford to remain un-
prepared to meet with gas with gas in
case an enemy proves faithless to its word.
The nation which has gas, they say,
and which uses it against a nation
which has no gas will win its war.

The question that is being asked to-
day is this: "If a nation finds itself
on the verge of defeat in war and
knows that it can be saved by gas, will
it refrain from its use because once
upon a time it signed a pledge?"

France and England will continue
their gas service for purely defensive
purposes; in other words, they intend
to be prepared in case some enemy of
either on the day of some future Ypres
violates its word and use gas off-
ensively for the overcoming of its
foe.

The United States, through its chem-
ical warfare service, developed and
perfected in the United States by Maj.
Gen. William L. Sibert, and in the
American expeditionary forces by Brig.
Gen. Amos A. Fries, has a gas equip-
ment and a gas knowledge second to
those of no nation on earth.

The choice of the future lies between the
policy of dependence upon the word of
nations, already in one instance vi-
olated, or continuing for purely de-
fensive purposes a service which has
shown itself to be so essential in the
case of faith-breaking on the part of
another.

It is said by army men that it is
foolish to assume that the next war
will be fought without rifles, machine
guns and artillery as to think it will
be fought without gas. It is urged that
the absolute guarantee against a gas
attack by any belligerent power will
be through defensive preparation
against such an attack.

There has been a feeling in the
United States, many men say, that gas
is more barbarous and inhuman than
other weapons of warfare. Gas service
men say that this is not the case.

Cost of Floating Liberty Loans.

Before long the people of the coun-
try will be given an opportunity—
perhaps privilege is a better word—to
subscribe to a fifth Liberty loan. As
yet nothing definite as to the rate of
interest which the loan will bear is
known. Neither has it been decided
whether the loan will be convertible
into bonds of other loans to bonds
of a new interest-bearing rate, and some
other vital matters, been decided.

There seems to be a misunderstanding
throughout the country concerning
the cost of the floating of the fourth
Liberty loan. A statement was print-
ed not long ago that it cost 15 per
cent to place that loan. If it had cost
this amount the floating would
have been worth the floating.

The truth in the case is that the
treasury department is allowed by law
only a maximum one-fifth of one per
cent for selling the loans. That is, all
expenses must be kept under one-fifth
of one per cent. Take the fourth Li-
berty loan of nearly \$7,000,000,000, for
it lacked only eleven millions of being
that sum. The cost of floating it was
only \$8,727,053.22.

One-fifth of one per cent of \$7,000-
000,000 would be \$1,400,000; therefore
it is to be observed that the cost of
floating the fourth Liberty loan was
only a little more than half the maxi-
mum allowed by law.

All Expenses Included.
It should be remembered that this
total expense includes the cost of the
manufacturing of the bonds, which in-
cludes the cost of the safeguarding paper
and all the engraving required in the
various processes. It includes also
all the costs of maintaining the Li-
berty loan organization in the 12 federal
reserve districts, and the necessary ex-
pense of subordinate committees.

More than a million volunteer work-
ers engaged in selling bonds during
the fourth Liberty loan campaign. The
total cost to the government per cap-
ita of these workers for three weeks' time
was less than \$5.

Here is a table which shows the cost
of floating the fourth Liberty loan
bonds and the War Savings certifi-
cates.

SUMMARY FIRST LIBERTY LOAN.
Total debt through Fed-
eral Reserve banks \$ 1,503,093.27
Total through Federal Reserve
banks 1,503,093.27
Aggregate \$ 2,762,336.20

Second Liberty loan \$ 5,539,062.99
Third Liberty loan \$ 2,238,519.54
Fourth Liberty loan \$ 8,727,053.22
War Savings certificates 4,459,960.76
Total \$29,782,763.01

The total amount raised by govern-
ment bonds for the government uses in
saving the world from the Hun is
about \$18,000,000,000. It takes a very
easy mathematical calculation to
show what the percentage of cost was
to put this wealth of bonds into the
strong boxes of the people.

One of the First Rules.
"Boys," says the Chicago News, "is
a beautiful exercise." So it is—only
due hygienic care should be exercised
in selecting your opponent.

Rushing to the Grave.
Everything hurries in New York, in-
cluding the undertakers. If the
undertaker will consent to the vehicle
moving at a trot on the way to the
cemetery, the charge is about half of
that for a walking funeral.—Emporia
Gazette.

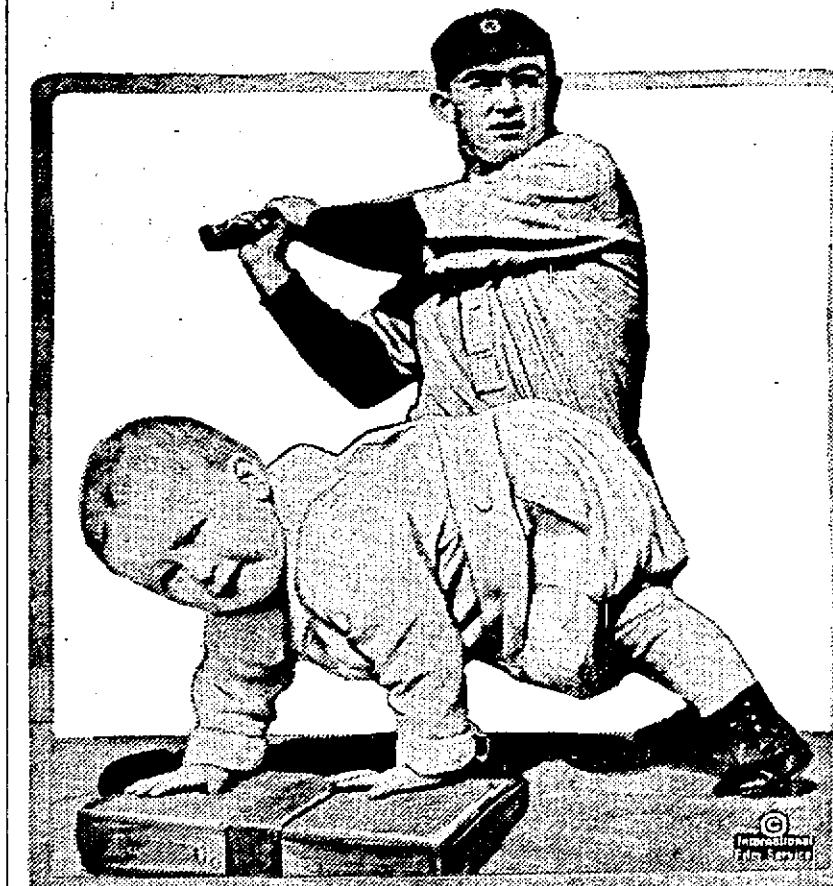

New York Help.
Advertisement in Gotham paper:
"Colored girls and boys, if you are
housework, no washing, or anything,
Miss A, 236 West 14th street."

Will Help Penn Team.
Harold Barron, star hurdler, has re-
turned to Penn after having been in
the service. He will add great
strength to the track team.

Little Work for Reds.
The Cincinnati Reds will spend only
two weeks in spring training away
from home.

Pollard Enters Penn.
Fred Pollard, former Brown track
and football star, has entered the Uni-
versity of Pennsylvania.

TYRUS COBB WANTS NEITHER OF HIS SONS TO FOLLOW HIS FOOTSTEPS IN BASEBALL

Ty Cobb's Youngest Son Stealing Home.

Tyrus R. Cobb has two sons—he
doesn't want either to become a ball
player.

He would not have either become a
ball player if he knew, in advance,
that each would achieve lasting fame
in the national game.

"I have some very definite plans
laid out for my youngsters," says
Cobb. "First of all, I want them to
learn the value of a silver dollar."

"When they complete their grade
school work I want each to get into a
factory where hard work will be the
law of employment. After laboring
there for six months, or a year (which
he should be able to do), then I want
them to become familiar with the whims
of money. I am going to send them to a
military school."

Doesn't Want Snobs.

"I realize, right now, that there is
danger of these boys of mine be-
coming snobs. I do not want to
appear egotistical, but I have suc-
ceeded as a ball player; I insist that
my youngsters do not capitalize because
of it."

"A few years in a military school
will set them straight in life, and
in health. It will remove all thoughts
of them being better than the other
fellow and they will also acquire the
qualities of leadership."

"After military school training I
want them to go to some big univer-

sity. Completing their college courses
they will be equipped to compete with
the problems of life."

Where Fame Lies.

"A ball player's fame is too fleet-
ing. You are a star today and a has-
been tomorrow. There is no perma-
nency. I do not regret having played
but, at the same time, I cannot help
but wish that I had established my-
self along more permanent lines. There
are very few ball players who get
paid in excess of \$5,000 a season,
and that is not a remarkable salary
for a man in business. In fact, it is
the rule, if the man is worth any-
thing to himself, or his employer."

Again, a ball player's life is limited.
At best he cannot last more than a
few years in the big leagues—and
there is his single chance to earn real
money.

"When he is through as a player
he has to start all over again. He
starts under the handicap of age. It
is harder for him to learn. He hasn't
the foundation and he has to draw
on the money he has saved when a
ball player to get along. By the time
he is through as a player, he has been
starting where the young fellow
of 25 years left off."

"Ball playing is all right if you
know, in advance, that you are going
to be a star, but unless you do, my
sons will do something else."

UMPIRE MADE THORPE LAUGH

When Hit on Hand With Pitched Ball
Indian Is Told to Show Injured
Mitt to Trainer.

Jim Thorpe, star football player and
better than the average diamond play-
er, has played baseball engagements
in the International League,
American association and with the
National league's Cincinnati Reds and
New York Giants.

Thorpe says the big league arbiters
have pulled some good ones at
his bat. Thorpe claimed he had been
hit and showed the marks on his hand,
which was swollen and bleeding slight-
ly. "Well, what shall I do about it?"
asked Thorpe, sure that he would be
told to go to first base.

"If I were you I'd have the trainer
look it over," replied the ump.

Artie Fletcher has signed to play
with the Giants again.

Princeton is optimistic over its foot-
ball prospects for next fall.

Pat Moran is planning on several
more trades to strengthen the Reds.

New York fans are looking forward
to enjoying Sunday baseball this sea-
son.

Clark Griffith says he would play
Babe Ruth on first base if he had
him.

It will not be surprising if Dimpsey
rules favorite over Willard when they
enter the ring.

Scott Perry is all ready to play ball
for Connie Mack again. He didn't
even threaten to hold out.

The Terry McGovern-Bat Nelson
fight in Philadelphia drew a gate of
\$22,000. That was in 1906.

The national commission is active
these days reinstating players who
quit baseball for the other side.

More big bouts will be held in Lon-
don before our soldiers and sailors
return from the other side.

Roy Thomas, who has coached the
Penn baseball teams for six years, will
be back on the old job this spring.

Lieut. Larry Smart, former Dela-
ware college football star, is one of
the latest American "aces" to return
to this country.

George McBride won't make his
managerial debut this year. When he
does it may be with a major instead
of a minor league outfit.

Willard and Leonard are in the big
money earning class with the moving
picture stars.

Connie Mack isn't saying a word as
to where he thinks his club will finish
this year. He doesn't have to.

George Washington Grant, now own-
er of the Braves, is a close friend of
Charles A. Stenholm, who recently pur-
chased the Giants.

Pop Young figures he is going to
have a big season on the middle sta-
tion with the Tigers this year.

The return of Joe Harris could help
Leah Foh's Indians a lot in the com-
ing campaign. Cleveland may be dan-
gerous.

Lieut. H. B. Palmer, a former West-
ern Reserve university football player,
has been promoted from second to first
lieutenant in the United States army
for gallantry, by order of Gen. J. J.
Forsberg.

Pollard Enters Penn.
Fred Pollard, former Brown track
and football star, has entered the Uni-
versity of Pennsylvania.

SHIP GARMENTS TO

FOREIGN SUFFERERS

It is with the greatest pleasure

that the Committee on War Relief

is able to report the shipment this

week of a great number of garments

and articles to the Central Depot at

New York. Letters from headquar-

ters received within the last few

days, contain words of warm ap-
preciation and an urgent appeal to

continue the good work for another

month, which is declared the

crucial period in the lives of thou-

sands.

The women of Grand Rapids and

Saratoga Rural Route No. 3 have

been most unselfish and generous of

their time and money in aiding the

committee to carry on the work. A

War Relief "Tag Day" had been set

for Feb. 25th, but owing to the ex-

treme cold weather was wisely de-

ferred until later. However, the

schools both public and parochial re-

ceived very generously the sum of

\$77.31 being realized from the sale

of buttons.

The committee packed 25 layettes

of 44 garments and articles were

packed to make the layette more com-

plete. 11 grey outing flannel gar-

ments for little boys and girls 6

years old, 11 fine quilts, 1 large pil-

low in case, 1 knitted convalescent

robe, and used clothing for men.

30 children, all in perfect

condition was shipped, making a

total of 1479 garments and articles

of comfort.

The following women contributed

to the shipment:

Mrs. Geo. Gibson 3 yards flannel,

Mrs. Ivah Babcock 45 needle books,

15 cotton shirts, 85 pairs of ties,

Mrs. W. Jenkins 50

bags, 2 dresses, 2 shirts, 8 wash

cloths, 10 pairs shoes, Mrs. R. M.

Gibson 6 men's undershirts, Mrs.

Mathews 12 pairs of socks, Mrs. G.

Abelard 1 complete layette, 2 coat,

1 sleeping garment, 2 shirts, 1 girl's

2 blouses, Mrs. V. J. 10 shirts, 3

60 yards of flannel, Mrs. Seiberth 30 towels,

30 wash cloths, Mrs. Guy Nash 6

30 shirts, 1 blanket, 6 jackets, Mrs.

Lina Corvieve 4 jackets, Mrs. L.

Locke 4 outting shirts, 6 pairs

boots, 10 night gowns, Mrs. M. P.

Johnson 2 dozen diapers, Mrs. Irv-

ingwaits, 5 shirts, 3 pairs booties, 4

knitted blouses, Mrs. Peter Kunt-

son 7 jackets, 5 shirts, 3 waists, 4

dresses, Mrs. John Long 2 jackets,

5 boy's waists, Mrs. Peterson 5

2 boys' waists, 5 dresses, 5

waists, Mrs. Geo. Hill 6 dresses,

Mrs. John Johnson 1 bonnet, 2 pr.

boots, 6 flannel bands, 6 dresses, 2

2 shirts, Mrs. Charles Boles 6

dresses, Mrs. Namensnick and Miss

Pauline 4 shirts, Mrs. Chas. 6 dresses,

berg 1 shirt, Mrs. Chas. Johnson 3

dresses, Mrs. Eric Kuntson 4 pr.

boots, 5 shirts, 2 jackets, 4 dresses

Mrs. Axel Peterson 3 dozen dia-

pers, 2 boy's waists, 3 dresses, 3

jackets, (the crocheting was done by

her little girl), Mrs. Monroe 1 blan-

ket, Mrs. Ely 2 pairs mittens, 2

knitted blouses, Mrs. Baldauf 1 man's

shirt, 2 sheets, 2 pr. pillow cases,

Mrs. John McCann 1 quilt, 2 cases,

15 jackets, 95 diapers, 3 jackets, Mrs. Le-

May 1 large hand made bed quilt,

Mrs. D. R. Goggins 3 dozen diapers

8 knitted bonnets, 9 elderdown baby

coats, Mrs. Goggins 1 shirt, 1 pair

mittens, Mrs. Goggins 1 shirt, 1 pair

mittens, Mrs. Paul Latus

56 boy's trousers, 36 diapers, Mrs.

E. Basa 22 boy's waists, Mrs. Figs-

ler 1 sweater, 1 shirt, 1 pair mittens

Er. 1 sweater, 1 shirt, 1 pair mittens

Er. 1 sweater, 1 shirt, 1 pair mittens

Er. 1 sweater, 1 shirt, 1 pair mittens

Er. 1 sweater, 1 shirt, 1 pair mittens

Er. 1 sweater, 1 shirt, 1 pair mittens

EVERY ITEM NEWS FOR SOMEBODY

Community Events of the Past Week from Various Parts of the County

SIGEL

I have been requested by the

Grand Rapids Chapter of Red Cross

to put a notice in a local paper in re-

gard to the garments for over-

seas. The week beginning March

24th has been designated as the

crucial period in the lives of thou-

sands. I am going to ask the schol-

ars of this schoolhouse that week

each district bring any garments

that may be offered to their respec-

tive schools. Also to have anyone

passing their schoolhouse that week

bring in what that teacher may

have obtained, (marked from Sigel)

and leave same at small building

across the street from the telephone

office in Grand Rapids. No straw

or stiff hats will be accepted, nei-

ther, but all other wearing appar-

LOCAL ITEMS

(Cecil Chapman underwent an operation at Riverview hospital Tuesday.

Mrs. A. Roach of Fond du Lac is visiting at the home of her son, C. H. Roach.

Link & Werle sold to Henry Gettleff the past week their 40 acres of land in the town of Grand Rapids.

Mrs. F. MacKinnon left Wednesday for Waukesha where she will take the baths as a treatment for sciatic rheumatism, with which she has been bothered for some time.

Walter Beck, who lives out in the town of Sigel, returned the latter part of the week from Camp Grand where he had been stationed for some time past in the service.

Ernest Johns of Nekeosa had his tonsils removed at the hospital on Wednesday.

Francis Van Lysel was taken to his home at Rudolph Tuesday from the hospital where she had been operated on for appendicitis.

Mrs. Emil Jadeck of Junction City returned to her home the first of the week after being at the hospital for the past two weeks, having been operated on for appendicitis.

Jack Carrigan was in the city Saturday and Sunday, having come up to go over some business at the Nekeosa-Edwards plant at Port Edwards before leaving for Spokane, Washington, where he has accepted a position with the company at their mill there. Mr. Carrigan left for the west Sunday evening.

Mrs. Will Rickman and son, Victor, have returned from a month's visit at Cecil.

A baby boy was born to Mr. and Mrs. Ed. Levine at Riverview hospital last Thursday night.

Joe Scholten of Vesper was operated on for appendicitis at the hospital Sunday and will be laid up for a while.

Miss Mildred Philles underwent an operation at Riverview hospital Wednesday morning for appendicitis. She has been getting along nicely since.

Word received here from Lieut. E. A. (Ebbitt) Arpin states that he has arrived in New York and expects to start for home soon. Ebbitt has been in the aviation service for some time past.

James Glennon is a business visitor in Madison today.

Court was adjourned Wednesday, the jury being released and will be opened again March 27th.

Try our delicious Arriba cream caramels. Special for Saturday and Sunday at 49c a pound at Otto's.

Private Walter Mosciuke returned home during the past week, having received an honorable discharge from the army.

Mr. and Mrs. John Sonnenberg, Sr. have returned from Iowa and Minnesota where they have been spending the winter.

Eva Krommenacker of Rudolph is taking a business trip to the hospital Tuesday where she has been operated on for appendicitis.

Mrs. R. E. McFarland and the two children of Mr. and Mrs. August Gottschalk are able to be around again after an attack of influenza.

August Althouse of New Rome was a pleasant caller at this office on Wednesday, while in the city on business. Mr. Althouse had been in the town of Sigel and Rudolph looking up a horse.

O. S. Hanson of Strong's Prairie was a business visitor in the city on Tuesday. Mr. Hanson has fully recovered from the burns he received in the fire in a garage at Friendship last fall.

Make your old hat new with Elkey's straw hat dye at 25c a bottle at Otto's.

Springs Authentic Styles

Are more lavishly shown here this season than ever before. The new colors, weaves and styles are wonderfully attractive.

DOLMANS

are Most Popular for Spring

Loose flowing lines add an individuality and charm hat will appeal to every woman who has a desire for something different. Serge and trololine are the favored fabrics, but other soft materials, in a pleasing variety of colors are equally attractive.

Beautifully Lined and Moderately Priced

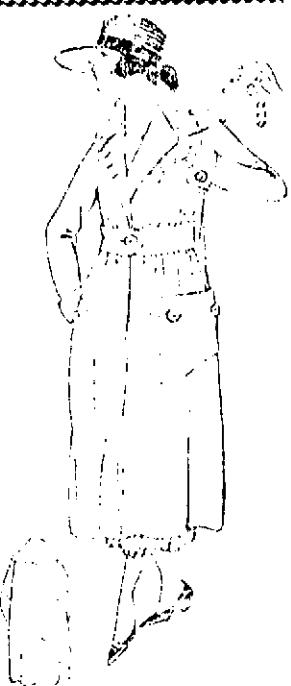

SPRING COATS

are Here in Great Variety

When you purchase that new Spring Coat, you will look for correctness of style, and also for fabrics that will hold their beauty and give the best service.

The attractive little details that give a coat individuality are carefully attended to. We are sure that they will please you.

\$12.95 and up.

Children's Garments

Every mother will appreciate the unusually attractive display of Children's Garments that we have selected this spring. Only the very latest styles and fabrics are here.

Wash Dresses

These dresses will be particularly welcome to mothers who wish to secure something dainty and cool for the little girl, and yet have something that can be easily washed. They are moderately priced and it will pay every mother to come in and see them.

Clever Spring Suits

Smartly designed Suits that combine both beauty and quality. The new Box Coat Suit is unusually attractive. Trimmings of braid, buttons, belt also add beauty to these garments.

Smart Skirts

The new Dolman Skirts are cleverly designed in the very latest style. A variety of fabrics, such as plaids, barretts, satins, oriental knits, fan-tasai, serges and poplins are here to choose from.

Dainty Blouses

Our stock of Blouses this season is unusually attractive with the variety of trimmings and patterns. Serges, tub silks, voiles, georgettes and poplins to choose from.

Wash Dresses

Just the thing for these days of house cleaning, when you need something that will give service and also have beauty and style.

Attention! Men & Young Men

Our new Spring Suits are here for your approval. This announcement will be hailed with joy by men that know the quality of clothes we handle. They know that every suit is of the latest style and fabric and will give perfect satisfaction.

Young Men's Suits

are cut on snappy lines that will have an appeal to the young men that know what they want.

Youths' Suits

Boys are not very fond of being dressed in the height of fashion during their hours of play, but just the same, they like clothes that are as good, or better than their playmates.

The snappy Military style with belts, waist seam coats and slash pockets still prevails in Youths Suits. Your boy will be proud of one of these suits, and you will never have to be ashamed of his clothes.

Spring Caps

A fine assortment of men's and boys' caps in the latest colors and patterns—the ideal cap for spring.

The Pure Food Grocery

The store that saves you time, trouble and money. Our Aim—to give our customers, no matter who they may be, the best of groceries and service at the right prices.
